Newsflash 08.12.2017

Draft bills on property law, the law of obligations and the law of evidence published

Our newsflash of 22 December 2016 already described the policy memorandum of Minister of Justice Koen Geens, which explained the key points of the planned reform of Belgium's property law and law of obligations.

Since 7 December 2017, the draft bills to adapt the Civil Code with regard to property law, the law of obligations and the law of evidence can be consulted on the website of the FPS Justice.

Suggestions or comments? It is possible to give feedback on these draft bills on bwcc@just.fgov.be until 1 February 2018.

We will be analysing a number of key points of these draft bills in greater detail soon.

Until then, for more information on this topic you can consult Christine Heeb, Ewoud Willaert and Julie Colpaert (authors).
