5 December 2017 - Schoups held seminar on "Hot Topics in Construction Law"

On Tuesday, 5 December 2017, our Construction Law practice group organised a morning seminar on "Hot Topics in Construction Law".

Marco Schoups and Els Op de Beeck gave a presentation on the contractor's liability, price determinations and payment. The THV, the principal's consignment possibility in the event of a disputed direct claim of the subcontractor and the obligatory insurance for the contractor's ten-year liability were also addressed.

For more information on these subjects you can contact Marco Schoups and Els Op de Beeck.
